

**TELEHEALTH SOLUTIONS FOR REMOTE
PATIENT MONITORING, BEHAVIOURAL
MODIFICATION AND LIVE ENGAGEMENT**

Health Kite is an eHealth platform based on a proven, flexible and secure technology stack. Health Kite connects patients with their caregivers and enables the seamless collection and transmission of healthcare data from bluetooth-connected medical devices through to the clinical care team who actively monitor the physiological and survey based data in real time. Health Kite has been designed to integrate with a wide range of medical devices, and clinical IT systems while also incorporating features such as Amazon Alexa voice control.

A TELEHEALTH SOLUTION FOR MULTIPLE CONDITIONS

Diabetes

- Blood Glucose Meter
- Ketone Test Kit
- BP Monitor
- Pulse Oximeter
- Patient Scales
- Patient Reported Outcomes

Cancer

- Medication Management and Adherence
- Health and Wellbeing Surveys
- Condition and Treatment advice/content
- Nutrition planning and adherence
- Information and advice for carers

Chronic Pain

- Medication Management and Adherence
- Pain tracker
- Pain Management Content
- Patient Reported Outcomes

COPD

- BP Monitor
- Pulse Oximeter
- Patient Scales
- Spirometer
- Thermometer
- Patient Reported Outcomes

Hypertension

- BP Monitor
- Pulse Oximeter
- Patient Scales
- Thermometer
- Patient Reported Outcomes

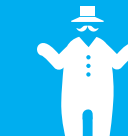

Heart Disease

- BP Monitor
- Pulse Oximeter
- Patient Scales
- Thermometer
- ECG
- Patient Reported Outcomes

Mental Health

- BP Monitor
- Pulse Oximeter
- Patient Scales
- Thermometer
- Patient Reported Outcomes

Obesity

- Weight management
- Nutrition planning and adherence
- Fitness / exercise tracking

Palliative Care

- Medication Management and Adherence
- Mental Health and Wellbeing Surveys
- Sleep tracker
- Palliative care content

Stroke

- Cognitive training tools
- Rehabilitation tools and content
- Patient reported outcomes
- Integrated medical devices (as required)
